We purchased her from G&P Longhorns in 2021. She is the matriarch of our ranch, being that she is the oldest and the longest tenured resident! She is over 85" TTT with a ton of total horn. To top it off, she only throws true black calves as she is homozygous black (ED/ED). Check out her daughter GP Cut'n Up to give you an idea of what she is capable of producing!

TTT: 85.5000 on 08/01/2024
